Required Publishing Tasks for Conference Publishers

1 Collect copyright transfer agreements, one form per paper, not per author.
IMPORTANT: The IEEE Copyright Form must be completed. An electronic copyright form is also available. Conference Organizers register with eCopyright to create an account that authors access online. The Organizer then receives a weekly report of which copyright transfers have been completed.

2 Instruct your authors to add the copyright notice to their papers **before** creating PDFs. Copyright notice can be found in Section IV ? Copyright Information in the Letter of Acquisition.

3 Instruct your authors to use the IEEE PDF eXpress Plus site to validate their papers (see following page).

4 Provide IEEE *Xplore*®-compatible PDFs to Conference Operations.

IMPORTANT: Any changes made to a PDF after IEEE PDF eXpress Plus conversion or PDF checking may invalidate *Xplore* compatibility. This includes headers, page numbers, copyright notice, watermarks, etc. If any of these elements are desired, they should be added to the document before a PDF is created.

5 All PDFs to be included in *Xplore* (e.g. title page, copyright page, author index, etc.) should be validated through PDF eXpress for *Xplore* compatibility.

6   If you are not using a publishing vendor's assistance, use the IEEE Packing List Generator (from the IEEE Publishing Technology Resources web page) to expedite the delivery of your PDFs to *Xplore*.

7   Distribute the following page to your authors to provide them access to free Word and LaTeX templates and to PDF instructions MS Word and LaTeX templates.
